June 2, 2021

Dear Mr. Claude AZEMA

We deeply regret to inform you that, due to the global spread of the coronavirus pandemic, the 18th Junior and Women World Petanque Championship, originally scheduled to be held in Ayutthaya on November 3-8, 2021 will have to be postponed.

Travel restrictions and quarantine requirements have been imposed in Thailand in an effort to curb the spread of COVID-19 infections while the country is pressing ahead with our vaccination program.

In the light of the above circumstances, we propose that the event be rescheduled to the end of the year 2022 or 2023

It is expected that Thailand will be able to return to normalcy after the majority of people in the country are fully vaccinated.

We hope you understand and support our decision. On our part, we remain fully committed to hosting the 18th Junior and Women Petanque Championship in Thailand when the new schedule is agreed upon and confirmed by all concerned.

Yours sincerely,

Kraisi Karnasuta

Mr. Kraisi Karnasuta
President, Petanque Association of Thailand
